WHO AM I?

I describe myself as a creative, proactive, and resilient individual when it comes to finding solutions and solving problems. My main interests revolve around information technology, security, and information protection within the IT field. Therefore, I am constantly seeking relevant knowledge on these topics.

Python

CSS

HTML

JavaScript

Linux

EXPERIENCE

1/2023 – 2/2023 — **Network Architech** — **Escuela Arcoiris**

As a Network Architect, I have planned and built a network topology for a school near the commune of Lumaco. I ensured the proper functioning of the internet infrastructure in the rural school, providing safe access to the internet for every member of the school.

`Python / Cisco / WAN`

6/2023 – 12/2023 — **Cyber Security Engineer Intern / CTIA** — **NOUS Chile**

I was part of the Threat Intelligence team. My responsibilities included defining and developing efficient new features to improve and optimize the quality of life of the service.

`Python / GAPPs / AWS / Linux`

1/2024 – Present — **Cyber Security Engineer / CTIA** — **NOUS Chile**

I work with a dedicated team on vulnerability assessment for a banking client, where I am currently developing and maintaining Python tools to gather enrichment intelligence, find exploits, and track incidents and various metrics to optimize the vulnerability assessment process. This primarily involves utilizing web scraping and API queries, including developing automated tools to generate metrics and create vulnerability reports.

`Python / JavaScript / PostgreSQL / Qualys / AWS`

1/2023 – Present — **FullStack Developer** — **Confidential**

Currently working on a platform to handle vulnerabilities.

`Python / React / PostgreSQL / AWS`

EDUCATION

2020 – 2023 — **Bachelor's Degree in Network Engineering** — **DUOC UC**

Pade Alonso de Ovalle Campus, Santiago, Chile

2023 - 2023 — **Azure Fundamentals - AZ900** — **Microsoft**

Santiago, Chile

2023 - 2023 — **DevNet Associate** — **Cisco**

Santiago, Chile

Spanish - Native
English - Proficient

HOBBIES

I love electronic music, breakcore to be precise. Sometimes, I create music using Ableton Live. I really enjoy building new sounds, especially the weird ones. I also like to learn and teach what I learn. You can find me on Spotify: "st0l"
